

# NeuroBloom Speech Pathology

## NEWSLETTER

### Professional Development

At NeuroBloom we are very passionate about continuing our professional development!

Sarah and Lucia recently attended the Sharing Best Practice conference in Wagga Wagga all about supporting children to read, write and spell.

We are also attending the International Society of Autism Research (INSAR) Conference in Melbourne, from the 15th -18th of May! The clinic will be closed 15th and 16th of May and will reopen Monday the 20th of May.

Check our Website for  
**FREE** resources to  
support your child's  
communication

### Podcast Episode: ARFID Avoidant Restrictive Food Intake Disorder

Picky eating, problem feeder and 'the white diet', we've heard it all before. But is there more to it than that?

In this episode Sarah and Lucia discuss 'Avoidant and Restrictive Food Intake Disorder' also known as ARFID.

## Podcast Episode: Gestalt Language Processing

Have you ever heard of the term  
echolalia?

Maybe its Gestalt Language  
Processing! This is a newer area of  
research in understanding different  
ways of acquiring language. Many  
Gestalt Language Processors are  
neurodiverse and so we see these  
types of communicators a lot in our  
work. This episode dives into what GLP  
is and how we can support people who  
communicate using Gestalts.

**Tune in now!**

## PODCAST EPISODE: EVIDENCE BASED LITERACY INSTRUCTION

In this episode we are sharing  
some insights into providing  
evidence based reading  
instruction - teaching kids to  
read, write and spell.
